### Press Release

#### **H.F.R.I.'s successful information workshops for the Action "Basic Research Financing" (Horizontal Support of all Sciences)**

The information workshops held by H.F.R.I. for the Call titled "Basic Research Financing" (Horizontal support of all Sciences) under the National Recovery and Resilience Plan (Greece 2.0) in collaboration with the University of Macedonia, the Aristotle University of Thessaloniki and the International Hellenic University in Thessaloniki (9.9. 2022) as well as the Panteion University of Social and Political Sciences in Athens (15.9.2022), were successfully completed with the participation of many Greek Academic and Research Institutions. These events were attended and greeted by the General Secretary for Research and Innovation, Professor Athanasios Kyriazis, as well as rectors and vice-rectors of the Institutions that co-organised the event.

H.F.R.I. was represented by the Chair of the Scientific Council, Professor Xenia Chrysochoou and the Member of the Scientific Council, Professor Georgios-Ioannis Nychas as well as the Director Dr Katerina Kouravelou. The aim of the workshops was to inform the potential beneficiaries of the Action. The Director of the Foundation presented in detail the terms and conditions of participation and the process of submitting proposals to the two Sub-Actions. Then she gave clarifying answers to a series of relevant questions raised by the attendees and online participants of the events. The two workshops are available at the following links:

#### **About the H.F.R.I.**

The Hellenic Foundation for Research and Innovation was established (Law No. 4429/2016) in response to the vital need for supporting Greek scientists. It is a legal person governed by private law, monitored by the Ministry of Development and Investments. The H.F.R.I. aims to promote research and innovation in the country. In particular, it aims to evaluate and finance unrestricted research, namely research activities, research infrastructure and their technological applications, arising from scientific curiosity, without any thematic exclusions or geographical limitations, having scientific quality and excellence as a unique criterion.
